

Programme¹

“Safe, Empowering and Sustainable City Approaches in Action for Women and Girls”

The UN Women Safe Cities and Safe Public Spaces Global Forum Safe on the theme “Empowering and Sustainable City Approaches in Action for Women and Girls” will bring around 200 leaders/experts from over 20 countries participating in evidence based and human rights based programmes in UN Women’s Safe Cities and Safe Public Spaces Global Flagship Programme Initiative (FPI) including: grassroots women, authorities, research institutions/partners, representatives from the media, private sector, and other partners from global networks specialized on women’s safety. The Forum aims to share and discuss evidence-based approaches, practices, tools, and learnings to advance the international knowledge base on safe cities and safe public spaces for women and girls.

Objectives:

- Provide up-to-date knowledge, good practices and share results achieved in the implementation of safe city and safe public spaces programmes that aim to prevent and respond to sexual harassment and other forms of sexual violence against women and girls in public spaces.
- Support a cross-regional face to face learning platform for gender equality, women’s empowerment and ending violence against women and girls, which can serve the Global Safe Cities and Safe Public Spaces online Knowledge and Exchange Platform (Community of Practice).
- Discuss policy and programme action including: coordination, sustainability, building to scale, evaluability for impact, and accountability.
- Strategize how the global movement on women’s safety in cities can maximize its policy and advocacy impact in the localization of the SDGs, including through the implementation of the new Urban Agenda, adopted in October 2016 in Quito, Ecuador in Habitat III.

Three key takeaways from the Forum include:

- ✓ **Heightened engagement** among multi sectoral stakeholders to implement safe, and sustainable cities with women and girls’ policy and programme action.
- ✓ **Tools and applied lessons learned** to further strengthen comprehensive multi-sectoral evidence, and human rights based approaches to prevent and respond to sexual harassment and other forms of sexual violence against women and girls in public spaces.
- ✓ **Good practices** in the implementation of safe city and safe public spaces programming, which contributes to SDGs: 4,5,11, and 16.

10:15 to 11:30am Audience Participation and Report Back Session

Given this is a Forum setting and in order to maximise the multi sectoral expertise in the room on this important theme, critical reflections will be held with delegates in the room in 9 tables, according in part to the issues presented in plenary session. Participants can discuss the issues identified in the plenary by discussant for further reflection, debate and make recommendations.

Five tables in the room will be arranged on issues that may *have not been discussed in this plenary session framed around a challenge and/or opportunity for the implementation of the urban agenda, as it relates to gender equality and EAW*. This would allow delegates to place other issues on the AGENDA for report back in this session. Rapporteurs should pay close attention to the good practices, tools or the commitments necessary that would help to advance implementation. Each table of participants will have to immediately appoint a rapporteur in order to report back in Plenary.
